Advise New High School Building.

The annual reports of the incorporated school district are in the hands of the voters and the annual meeting is called for Friday evening in the opera hall. The warning contains no article of especial interest but in the report of the trustees there is discussed the crowded condition of the school building and the need of additional room. The trustees see but one solution of the problem and that is the erection in the near future of a new and separate high school building in its entirety for the grades. There is much of interest and instructiveness in the reports of the various officials which can be read with profit by our people.

Keys-Kipp.

A pretty home wedding was solemnized Tuesday noon, June 27th at the home of Mr. and Mrs. Keys, Maple street, Orleans, when their youngest daughter, Miss Helen Eunice Keys, was united in marriage with Clayton C. Kipp of St. Johnsbury, by the Rev. W. S. Smithers, in the presence of the immediate families of the bride and groom. The single ring service was used. The bride was becomingly gowned in white embroidered muslin, trimmed with blue messaline. A delicious luncheon was served. Many beautiful gifts indicated the popularity of the young people. They left on the Air Line south for a short trip, after which they will go into camp for the rest of their honeymoon. They will make their home at St. Johnsbury. They enter upon the voyage of life with the good wishes of a host of friends.

Stafford Signs with Giants.

Mr. and Mrs. E. D. Stafford and son, Dwight, were in Boston last week to attend Class day at Tufts college, where their son, Henry, graduated. Henry came home Friday evening but started for New York Saturday to play ball with the New York Giants with whom he has signed a contract for the season. The Boston Transcript says of Stafford: "Several league teams were after him. Henry A. Stafford, captain of the 1916 Tufts baseball team and one of the ranking in college baseball, will join the New York Giants this week. Stafford, who is a second baseman, was on the varsity nine four years and before that was a star at Dean academy. He has just had his best year, batting .420 and stealing nearly 30 bases. His work attracted the attention of big league scouts and he had numerous offers, but preferred to cast his lot with New York. Stafford was one of the most popular men in college, was president of the senior class and member of a number of honorary societies. He also was prominent in track athletics, being the fastest sprinter in college and a varsity relay runner. Stafford made a good record in his studies and after the league season is over will take a position with a chemical company. He received at commencement yesterday the degree of bachelor of science in chemical engineering."
